

## REMARKS

Applicants specifically address each of the Examiner's objections and rejections in the order in which they appear in the Office Action.

### Claim Rejections – 35 USC §112

In the Office Action, the Examiner rejects Claims 1, 10 and 36-37 under 35 USC §112, second paragraph, as being indefinite. This rejection is respectfully traversed.

More specifically, the rejection objects to the term “adapted for” in the claims. In order to advance the prosecution of this application, Applicants are deleting the term “adapted” from the claims. It is respectfully submitted that this overcomes the objection to the claims, and the claims are not indefinite or vague.

Accordingly, it is respectfully requested that this rejection be withdrawn.

### Double Patenting

The Examiner also has the following double patenting rejections:

- A. Claims 1, 10 and 36-37 are rejected on the grounds of non statutory obviousness-type double patenting as being unpatentable over Claims 1-2 and 8-9 of U.S. 7,390,668.
- B. Claims 1, 10 and 36-37 are rejected on the grounds of non statutory obviousness-type double patenting as being unpatentable over Claim 1 of U.S. 7,384,623.

These rejections are respectfully traversed.

While Applicants traverse these rejections, in order to advance the prosecution of this application, Applicants are filing herewith terminal disclaimers over the '668 patent and over the

'623 patent and the terminal disclaimer fee. Accordingly, these rejections have been overcome, and it is respectfully requested that the rejections be withdrawn.

Conclusion

It is respectfully submitted that the present application is in an allowable condition and should be allowed.

If any further fee should be due for this amendment and/or the terminal disclaimers, please charge our deposit account 50/1039.

Favorable reconsideration is earnestly solicited.
